

Legacy Oil + Gas is seeking a full-time

Production Technician/Technologist

The candidate will support the Production Department by estimating corporate production, inputting production information into systems, completing production

related regulatory submissions, and general daily support of the production/exploitation department.

Qualifications:

- Minimum of five years' experience in Oil & Gas Production
- PVR experience preferred
- Strong computer proficiency in Excel, Accumap and technical/engineering software
- Good communications skills to allow for efficient transfer of information to field personnel and management

Legacy offers competitive compensation and benefits.

Resumes may be e-mailed to: **info@legacyoilandgas.com**

ATTENTION: Curt Labelle, Vice President, Production

Only candidates of interest will be contacted.

Legacy is a uniquely positioned, well-capitalized intermediate oil and natural gas company with proven management team committed to aggressive, cost-effective growth of light oil reserves and production in Saskatchewan and Manitoba. Legacy's common shares trade on the TSX Exchange under the symbol LEG.
